Neue Publikationen die Flechtenflora Mitteleuropas betreffend Elfte Folge

RAINER CEZANNE & MARION EICHLER

Die Liste neuer Publikationen ist das Ergebnis einer subjektiven Auswahl und erhebt angesichts der Fülle an aktuellen Publikationen keinen Anspruch auf Vollständigkeit. Die nachstehende Liste enthält Publikationen aus dem Jahr 2024 und einzelne aus 2025, aber auch einige wenige aus dem Jahr 2023, die bislang nicht berücksichtigt wurden.

Der geographische Bezugsraum der Auswahl wurde – wie in den vergangenen Jahren auch – vereinzelt über Mitteleuropa hinaus erweitert, wenn die betreffende Publikation von generellem Interesse erschien.
