

Neue Publikationen die Flechtenflora Mitteleuropas betreffend Zwölfte Folge

RAINER CEZANNE & MARION EICHLER

Die Liste neuer Publikationen ist das Ergebnis einer subjektiven Auswahl und erhebt angesichts der Fülle an aktuellen Publikationen keinen Anspruch auf Vollständigkeit. Die nachstehende Liste enthält überwiegend Publikationen aus dem Jahr 2025, aber auch solche aus früheren Jahren, die bislang nicht berücksichtigt wurden.

Der geographische Bezugsraum der Auswahl wurde – wie in den vergangenen Jahren – vereinzelt über Mitteleuropa hinaus erweitert, wenn die betreffende Publikation von Interesse erschien.

Vielen Dank für die zugesendeten Hinweise.

- APTROOT, A. 2025. *Toniniopsis verrucarioides* reported for the first time from the Eifel. – *Herzogiella* **12**: 53–54.
- ARAGÓN, G., GIMÉNEZ, G. F. & NEGRÓN, V. 2025. Tree forks drive epiphyte diversity in Spanish holm oak dehesas: unveiling critical tree morphological factors. – *European Journal of Forest Research* **144**: 1719–1731.
- ARCHAMBAUX, P. 2025. Présence de *Multiclavula cornoides* (Peck) R.H. Petersen et de *Lichenomphalia velutina* (Quél.) Redhead & al. dans le massif de Belledonne (Isère, France). – *Bulletin de Association Française de Lichénologie* **50**(2): 221–227.
- ARUP, U., MALÍČEK, J., SCHIEFELBEIN, U. & HOLIEN, H. 2025. *Lecanora hybocarpa* and similar European species. – *Lichenologist* **57**(6): 239–255. doi:10.1017/S0024282925101291.
- ARUP, U., NIMIS, P. L., VONDRÁK, J., SVOBODA, S. & SØCHTING, U. 2025. A new epiphytic species of *Gyalolechia* with a maritime, Mediterranean-Macaronesian distribution. – *Lichenologist* **57**(2): 53–60.
- AVERIS, A. 2025. Microhabitat in relation to successful *Lobaria pulmonaria* transplants. – *British Lichen Society Bulletin* **136**: 2–6.
- BEDNÁR, F., BUČINOVÁ, K., CHRASTINOVÁ, M., GRUSKA, J., & GUTTOVÁ, A. 2024. Príspevok k poznaniu lišajníkov Bystrej doliny a okolia (Nízke Tatry, Slovensko) [Contribution to the knowledge on lichens of the valley Bystrá dolina and the adjacent area (Nízke Tatry Mts, Slovakia)]. – *Bull. Slov. Bot. Spoločn.*, roč. **46**(2): 147–161.
- BEDNÁR, F., CHRASTINOVÁ, M., BUČINOVÁ, K. & GUTTOVÁ, A. 2025. Lišajníky zaznamenané na exkurziách 12. zjazdu Slovenskej botanickej spoločnosti pri SAV a na Lichenologickom vinobraní v r. 2024 (Veľká Fatra, Nízke Tatry, Západné Karpaty) [Lichens recorded during excursions of the 12th Congress of the Slovak Botanical Society SAS and at Vindemia lichenologica in 2024 (Veľká Fatra Mts, Nízke Tatry Mts, Western Carpathians)]. – *Bulletin Slovenskej Botanickej Spoločnosti* **47**(2): 163–174.
- BERGER, F. & ZIMMERMANN, E. 2025. Contribution to the knowledge of the lichenicolous mycobiota of the Alps II. – Six new species from Austria and Switzerland. – *Herzogia* **38**(1): 51–69.
- BERGER, F., CEZANNE, R. & EICHLER, M. 2025. *Unguiculariopsis stenospora*, the first parasitic fungus on *Ceothelium lutescens*. – *Österr. Z. Pilzk.* **32**: 105–108.
- BERNET, J., VONARBURG, C. & OTÁLORA, M. A. G. 2025. First European record of *Sticta arenosella* and new Central European records of *Sticta fuliginoides*. – *Plant and Fungal Systematics* **70**(2): 75–84.
- BERTRAND, M., LEBRETON, E. & MOLINA, J. 2025. Redécouverte de *Gyalidea asteriscus* (Ascomycota, Gomphillaceae) à Fournès (France): une espèce très rare retrouvée après plus de cinquante ans dans sa localité historique française. – *Bulletin de Association Française de Lichénologie* **50**(2): 187–200.
- BEUDIN, T. 2025. *Pertusaria luteola* Boqueras, espèce de lichen nouvellement découverte en France. – *Bulletin de Association Française de Lichénologie* **50**(1): 29–31.
- BIACHE, C., GUERIN, C. & BLONDEL, F. 2025. Premier inventaire et mise en place d'un suivi des lichens corticoles et lignicoles dans la réserve biologique intégrale de la montagne de Lure (Alpes de Haute-Provence, France). – *Bulletin de Association Française de Lichénologie* **50**(2): 229–242.
- BLASCHKE, M. 2025. Flechten, Pilze und xylobionte Käfer: Wald-Indikatorarten in einem Höhengradienten in Mittelgebirgen in Relation zur Waldnutzung. – *Naturschutz und Landschaftsplanung* **57**(3): 30–36.

- BLASCHKE, M., EICHLER, M., CEZANNE, R., KAUFMANN, S. & SIEMONSMEIER, A. 2025. Änderung der Flechtenflora entlang eines Höhengradienten in Naturwaldreservaten und bewirtschafteten Vergleichsflächen im Bayerischen Wald und Neuburger Wald. – *Der Bayerische Wald* **38**(1+2): 6–19.
- BOURDON, C. 2025. Premier inventaire des lichens de la Réserve nationale de chasse et de faune sauvage du Caroux-Espinouse (Hérault, France). – *Bulletin de Association Française de Lichénologie* **50**(1): 1–27.
- BOURDON, C., POUMARAT, S. & ROUX, C. 2025. Découverte en France de *Rinodina egedeana*, jusqu'ici connu seulement au Groenland. – *Bulletin de la Société Linnéenne de Provence* **76**: 105–107.
- BRACKEL, W. VON & WIRTH, V. 2025. Flechtenbewohnende Pilze aus der Rhön (Deutschland). – *Herzogia* **38**(2): 453–463.
- BRACKEL, W. VON & THÜS, H. 2025. Flechte und Moos des Jahres. – *Herzogiella* **12**: 135–140.
- BRACKEL, W. VON 2025. Lichenicolous fungi from the northern Apennines and foreland (Italy). – *Borziana* **6**: 5–53.
- BRACKEL, W. VON 2025. *Pronectria raetzellii*, a new lichenicolous fungus on *Peltigera* from Brandenburg (northeastern Germany). – *Graphis Scripta* **37**(1): 1–6.
- BREIT, E., CEZANNE, R., EICHLER, M., HINSKE, P. & JOHN, V. 2025. Tag der Artenvielfalt 2024 in St. Wendel, Saarland. Flechten, flechtenbewohnende und flechtenähnliche Pilze. – *Abh. Delattinia* **50**: 17–34.
- BREUSS, O. 2024. Flechten im Parkfriedhof Sankt Marx in Wien (Österreich). – *Österr. Z. Pilzk.* **31**: 177–182.
- BREUSS, O. 2025. Neue und seltene Flechtenfunde aus Wien (Österreich) – mit aktualisierter Gesamtliste. – *Österr. Z. Pilzk.* **33**: 129–149.
- BRIEN, Y., RAGOT, R. & MONNAT, J.-Y. 2025. Les lichens de Belle-île-en-Mer (Morbihan, Bretagne, France). – *Bulletin de Association Française de Lichénologie* **50**(2): 125–186.
- CANNON, P., COPPINS, B. & SIMKIN, J. 2025. Thelocarpaceae, including *Sarcosagium* and *Thelocarpon* (Thelocarpaceae). – *Revisions of British and Irish Lichens* **48**: 1–10.
- CANNON, P., COPPINS, B., APTROOT, A. & SIMKIN, J. 2025. Collemopsidiales, including *Collemopsisidium*, *Didymellopsis*, *Frigidopyrenia*, *Zwackhiomacromyces* and *Zwackhiomyces* (Xanthopyreniaceae). – *Revisions of British and Irish Lichens* **45**: 1–14.
- CANNON, P., COPPINS, B., APTROOT, A., FRYDAY, A. & SIMKIN, J. 2025. Miscellaneous Peltigerales, including *Spilonema* (Coccocarpiaceae), *Tingiopsidium* (Koerberiaceae), *Massalongia* and *Polychidium* (Massalongiaceae), *Placynthium* (Placynthiaceae) and *Vahliella* (Vahliellaceae). – *Revisions of British and Irish Lichens* **50**: 1–16.
- CANNON, P., COPPINS, B., APTROOT, A., SANDERSON, N. & SIMKIN, J. 2025. Coniocybales, including *Chaenotheca*, *Chaenotricha*, *Coniocybe* and *Sclerophora* (Coniocybaceae). – *Revisions of British and Irish Lichens* **47**: 1–11.
- CANNON, P., COPPINS, B., APTROOT, A., SANDERSON, N. & SIMKIN, J. 2025. Miscellaneous lichens and lichenicolous fungi, including *Aphanopsis* and *Steinia* (Aphanopsidaceae), *Arthrorhaphis* (Arthrorhaphidaceae), *Buelliella*, *Hemigrapha*, *Melaspilella*, *Stictographa* and *Taeniolella* (Asterinales, family unassigned), *Phylloblastia* (Chaetothyriales, family unassigned) *Cystocoleus* (Cystocoleaceae), *Sclerococcum* (Dactylosporaceae), *Eiglera* (Eigleraceae), *Epigloea* (Epigloeeaceae), *Euopsis* (Harpidiaceae), *Lichenothelia* (Lichenotheliaceae), *Lichinodium* (Lichinodiaceae), *Melaspilea* (Melaspileaceae), *Epithamnolia* and *Mniaecia* (Mniaeciaceae), *Lichenostigma* (Phaeococcomycetaceae), *Pycnora* (Pycnoraceae), *Racodium* (Racodiaceae), *Chicitaeta* and *Loxospora* (Sarrameanaceae), *Schaereria* (Schaereriaceae), *Strangospora* (Strangosporaceae), *Botryolepraria* and *Stigmatidium* (Verrucariales, family unassigned), and *Biatoridium*, *Mycoglaena*, *Orphniospora*, *Piccolia*, *Psammia* and *Wadeana* (order and family unassigned). – *Revisions of British and Irish Lichens* **57**: 1–78.
- CANNON, P., COPPINS, B., FRYDAY, A. & SIMKIN, J. 2025. Miscellaneous Pertusariales, including *Agyrium* (Agyriaceae), *Coccotrema* (Coccotremataceae), *Dibaeis*, *Icmadophila*, *Siphula* and *Thamnolia* (Icmadophilaceae) and *Microcalicium* (Microcaliciaceae). – *Revisions of British and Irish Lichens* **51**: 1–11.

- CANNON, P., COPPINS, B., SANDERSON, N. & SIMKIN, J. (2025). Various Arthoniales, including *Andreiomycetes* (Andreiomycetaceae), *Chrysothrix* (Chrysotrichaceae), *Ingaderia* (Opegraphaceae), *Roccellographa* (Roccellographaceae) and *Bactrospora*, *Bryostigma*, *Felipes*, *Mixtoconidium*, *Perigrapha* and *Phacothecium* (family unassigned). – *Revisions of British and Irish Lichens* **53**: 1–15.
- CANNON, P., COPPINS, B., SANDERSON, N. & SIMKIN, J. 2025. Arctomiales: Arctomiaceae, including *Arctomia*, *Gabura* and *Gregorella*. – *Revisions of British and Irish Lichens* **56**: 1–5.
- CANNON, P., COPPINS, B., SANDERSON, N. & SIMKIN, J. 2025. Baeomycetales: Baeomycetaceae, including *Aino* and *Baeomyces*. – *Revisions of British and Irish Lichens* **55**: 1–5.
- CANNON, P., COPPINS, B., SANDERSON, N. & SIMKIN, J. 2025. Basidiomycota, including *Multiclavula* (Hydnaceae) and *Arrhenia*, *Dictyonema*, *Eonema* and *Lichenomphalia* (Lichenomphaliaceae). – *Revisions of British and Irish Lichens* **54**: 1–11.
- CANNON, P., FRYDAY, A., COPPINS, B., APTROOT, A., SANDERSON, N. & SIMKIN, J. 2025. Hymeneliales, including *Hymenelia* and *Tremolecia* (Hymeneliaceae). – *Revisions of British and Irish Lichens* **46**: 1–8.
- CANNON, P., ORANGE, A., APTROOT, A., COPPINS, B., FLETCHER, A., FRYDAY, A., SANDERSON, N., SIMKIN, J. & VAN DEN BOOM, P. (2025). Lecanorales: Catillariaceae, including the genera *Catillaria* and *So-lenopsora*. – *Revisions of British and Irish Lichens* **59**: 1–13 [minor revision to correct an error in the title, and removal of *Gilbertaria* to the Sphaerophoraceae].
- CANNON, P., PRIETO, M., COPPINS, B., SANDERSON, N. & SIMKIN, J. (2025). Lichinales [revision 1], including the genera *Collemopsis*, *Forssellia*, *Lemmopsis*, *Lichina*, *Metamelanea*, *Paulia*, *Pyrenocarpon*, *Synalissa* and *Thelignya* (Lichinaceae), *Synalissina* (Lichinellaceae), *Allopyrenis*, *Peltula* and *Phylliscum* (Phylliscaceae) and *Ephebe*, *Lempholemma*, *Porocyphus*, *Pyrenopsis*, *Thermutis* and *Watsoniomyces* (Porocyphaceae). – *Revisions of British and Irish Lichens* **58**: 1–29.
- CEZANNE, R. & EICHLER, M. 2025. Flechten an einer abgebrochenen Eiche im Darmstädter Ostwald. – *Herzogiella* **12**: 87–95.
